

## All Countries & Territories with Active Zika Virus Transmission

This map includes countries and territories where mosquito-borne transmission of Zika virus has been reported, including countries with current travel notices issued for Zika. **Shading does not necessarily indicate that mosquito-borne transmission is occurring throughout the entire country or territory.** This map does not include countries and territories that have reported only travel-associated cases, nor does it include countries and territories with past transmission of Zika virus.

For information on countries and territories with Zika travel notices, see CDC's [Travelers' Health Zika website](https://wwwnc.cdc.gov/travel/page/zika-information) (<https://wwwnc.cdc.gov/travel/page/zika-information>).

For information on Zika cases in the United States, see [Case Counts in the US](https://www.cdc.gov/zika/intheus/maps-zika-us.html#active-florida). A [detailed map](https://www.cdc.gov/zika/intheus/maps-zika-us.html#active-florida) (<https://www.cdc.gov/zika/intheus/maps-zika-us.html#active-florida>) of areas of the United States with active transmission of Zika is available.

See [CDC's Country Classification Technical Guidance](#)

- Anguilla
  - Antigua and Barbuda
  - Argentina
  - Aruba
  - The Bahamas
  - Barbados
  - Belize
  - Bolivia
  - Bonaire
  - Brazil
  - British Virgin Islands
  - Cayman Islands
  - Colombia
  - Commonwealth of Puerto Rico, US territory
  - Costa Rica
  - Cuba
- Curacao
  - Dominica
  - Dominican Republic
  - Ecuador
  - El Salvador
  - French Guiana
  - Grenada
  - Guadeloupe
  - Guatemala
  - Guyana
  - Haiti
  - Honduras
  - Jamaica
  - Martinique
  - Mexico
  - Nicaragua
  - Panama
- Paraguay
  - Peru
  - Saba
  - Saint Barthélemy
  - Saint Lucia
  - Saint Martin
  - Saint Vincent and the Grenadines
